Liberty Alliance Project

Deployment Workshop

June 12, 2006 / San Francisco, CA

Andrew Shikiar,
Liberty Alliance Membership Director
Goals for Today’s Workshop

- Provide you with expanded Liberty knowledge
  - Organizational
  - Implications of Liberty technology
- Focus on business drivers & real-life use case studies for web services implementations
- You should leave today with actionable information about Liberty and digital identity
The Liberty Alliance is the only global body working to define and drive open technology standards, privacy and business guidelines for digital identity management.
Liberty Alliance delivers real world solutions to solve real world identity problems
