

Join your hosts the Brønnøysund Register Centre, Sun Microsystems and Liberty Alliance in a free informative workshop focused on successful identity management deployments. The workshop will be facilitated at the Norwegian Ministry of Government Administration and Reform. Hear from your counterparts who've successfully deployed identity solutions to meet public sector business requirements, reduce costs, increase ease of use for citizens and employees, and meet regulatory requirements by implementing privacy and security focused solutions based on the Liberty Alliance standards.

Join proven industry leaders for a day of free exchange

When: October 17, 2006, 8:30-15:30
Location: Fornying- og administrasjonsdepartementet
 Akersgt. 59
 Oslo, Norway

The workshop will provide active dialogue between participants and presenters, with real-time problem solving and business case analysis. You'll explore how many organizations have successfully executed eGovernment initiatives that have brought immediate cost savings and new citizen-enabling programs to life, in a very short period of time. Whether you and/or your customers are considering, implementing or already operating an identity infrastructure, this event is a must to help shorten the learning curve by hearing the experiences of those who've successfully executed.

AGENDA

08:30 – 09:00	Registration and Coffee Introduction: Putting Identity to Work <ul style="list-style-type: none"> • Technology, business and policy activities—putting all to work to drive the work of Liberty Alliance • Liberty eGovernment special interest group, focused strictly on eGovernment activities and members 	Andrew Shikiar, Liberty Alliance
